

COURSE PROGRAM

1 (2)

Use this form to record the course programme.
Alternatively, you can type the programme directly into the Skaftuki service.

Name of the course

Start date End date Course duration in lesson hours (1 lesson = 45 min)

Form instructions

Course contents

In this section, list the topic of teaching for each session. A general description is enough, for example: audience contact, improvisation practice, exercises for getting to know each other, etc.

Working mode

Choose a code for which way the work is organised:

Code WG: The whole group is being taught together.

Code SG: The teaching is divided into small groups. Each group must have a minimum of six students and a teacher. For example, if a course has 12 students, they can be divided into two small groups (with both groups having their own teacher).

Lessons

Mark the duration of the session in number of lessons (1 lesson = 45 minutes).

PROGRAM

Date and time Start – End	Course contents	Teacher(s)	Working mode (WG or SG)	Lessons (à 45 min)
